

**Mentor and Practice Leader**

Wade Sanders

**Areas of Practice**

- Model Guardian
- Certified Configuration Management Expert
- Senior Project Manager – Scrum, Agile, Traditional
- Certified Facilitator & Quality Assurance Training Professional
- Risk Planning and Assessment - CMMI Infrastructure
- Quality Assurance (QA), Testing and Inspection and Root Cause

Wades is a strongly motivated professional with extensive project management experience in all areas of Quality assurance and Software Configuration Management (SCM), and Test Planning and Management.

**Key Strengths**

**Process Improvement and Team Facilitation** - Gap Analysis determining delta between current ISO 9000 processes and new ISO 9000-2000 requirements. An experienced facilitator and guide for model implementation efforts for ISO transition and creation of a metrics program. Identifies process improvements and high-risk, single point of failure areas. Review of state reporting requirements to determine compliance. Team training and ongoing mentorship.

**Quality Assurance (QA)** – delivers planning and assessments including Gap Analysis

**Disaster Recovery and Risk Planning and Management** – Disaster Recovery and Risk Planning and Management, ISO 9000. Review of current Risk Identification and Assessment project determining process improvements. Facilitation of business resumption planning team.

**CMMI Model Integration** – Carnegie Mellon, Capability Maturity Model Integration (CMMi), and CMMI pre-assessments. Creates the Maturity Model infrastructure (working with your team of subject matter experts). Include areas of CMMI in Software Configuration Management, Testing and Inspection, Quality Assurance, and Root Cause Analysis expertise.

**Software Configuration Management (SCM)** –

**Test Planning and Management** – Test Planning and Management. Project Manager for major software / hardware product release. Performs Test Manager role for parallel project.
